This section of the Golden ICD-10 Dermatology Guide is dedicated to [John Voorhees, M.D.](#) due to his special interest in psoriasis. I attended the University of Michigan Medical School and decided to become a dermatologist during a two week rotation in the U. of M. Department of Dermatology. It is a terrific department and Dr. Voorhees has been the Chief since 1975. I have not missed a single Michigan Dermatological Society meeting at the U. of M. since Dr. Voorhees has been the chief. When Dr. Voorhees speaks, I listen.
